

Rajan Extrusion Technique

ABC Blown Film Machine

The **ABC Blown Film Machine** is a state-of-the-art solution for producing triple-layer films with enhanced efficiency and cost savings. It enables the use of recycled materials or fillers in the middle layer, ensuring a balance between sustainability and high-quality output.

Features:

- ✓ Triple-layer co-extrusion system
- ✓ Superior durability
- ✓ Eco-friendly material compatibility
- ✓ High production efficiency

Applications:

- ✓ Industrial packaging
- ✓ Stretch films
- ✓ Shrink wraps
