Mono Layer Blown Film Machine

The **Mono Layer Blown Film Machine** is a high-performance machine designed to produce single-layer plastic films. It offers cost-effective production while delivering high-quality film output, making it ideal for packaging, agriculture, and industrial use.

Features:

- ✓ High-speed production
- ✓ Consistent film thickness
- ✓ Low maintenance cost
- ✓ User-friendly control panel

Applications:

- ✓ Plastic shopping bags
- ✓ Industrial wrapping films
- ✓ Agricultural films

Model	Screw Dia (mm)	Screw L/D	Main Motor	Roll Size	Layflat Width	Film Thickness(Microns)	Max Output (Kg/Hrs)	Connecting Load	Plant Dimension LxWxH(Feet) Apprx.
